WP5: Training Brainstorming on the platform development

Oliver (HZDR), Antoine Padovani (SOLEIL)

Pan Training Portal Architecture

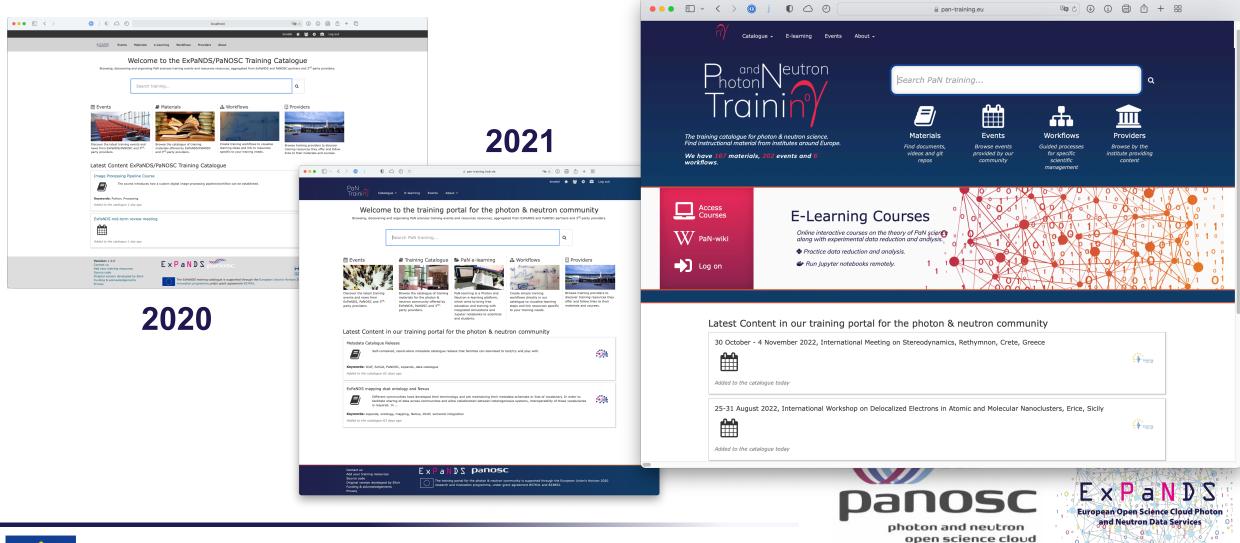

- Overall PaN Training landing page with our three different services:
 - Events Calendar as part of our Catalogue.
 - Training Catalogue based on TeSS developed by ELIXIR and adapted / extended by ExPaNDS: https://pan-training.eu
 - E-learning plattform based on Moodle provided by PaNOSC:
 https://e-learning.pan-training.eu/

PaN Portal (or Training Catalogue)

Metadata

- We presented our metadata schema in **D5.4**: "Demonstrator for using e-learning platforms for PaN"
- In our training catalogue, we use the RDA metadata schema as a basis and add further elements from the IEEE Standard (IEEE 2002) for Learning Object Models (LOM)

"Generic" Term	Description	PaN Catalogue Property
title	The name of the resource.	title*
url	URL that resolves to the learning	url*
	resource or to a "landing page" for the	
	resource that contains important	
	contextual information including the	
	direct resolvable link to the resource.	
abstract	A brief synopsis about or description	short_description*
	of the learning resource.	_
author(s)	List of full name of the author(s)	authors
author_org	Name of organisation authoring the	author_org (intended)
	resource.	
context	Principal environment within which the	target_audience
	learning & use of the resource is	
	intended to take place, e.g., university,	
	RI	
contributor(s)	List of full name of secondary	contributors
0.00	person(s) contributing to the resource.	
Org	Name of organisation that has been	content_provider
	asserted as the contact for the	
	resource in case of questions or	
areater	follow-up by resource user. The login name of the person creating	creator (intended)
creator	the catalogue record.	creator (intended)
date created	The date on which the resource was	created at
date_created	created.	created_at
difficulty	How hard it is to work with or through	difficulty level
difficulty	the resource for the typical intended	
	target audience (very easy, easy,	
	medium, difficult, very difficult,	
	knowledge-dependent)	
featured event	Course instance or event where this	events
	training resource was or will be	
	featured. (inverse of workFeatured)	
id	System identifier for the MD record.	id
keywords	Keywords or tags used to describe the	keywords
_	resource.	_
language_primary	Language of the material	language (intended)
license	A license document that applies to this	licence
	content, typically indicated by URL.	
	A more detailed description of the	long description
	learning resource.	
1r type	The predominant type or kind that	resource type
	characterises the learning resource.	
resource id label	A globally unique label that identifies	doi
	the learning object.	
subject	Subject domain toward which the	scientific topic
_	resource is targeted.	
*mandatory		

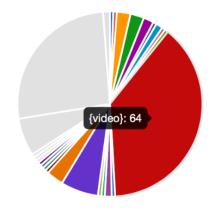

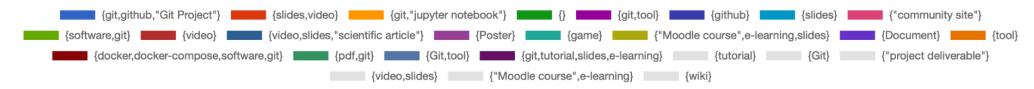

Fixed Vocabularies

- We have fixed vocabularies for:
 - Language,
 - Scientific topics (PaNET),
 - License,
 - Difficulty level and
 - (Content provider)

pie chart resource_type

Curation

- Our catalogue provides curation of materials (also for scraped content).
- The curation role allows full access to modify and also delete or exclude content).

Automated Scrapers

- At the moment we scrape/harvest content from:
 - e-learning.pan-training.eu
 - LEAPS
 - Laserlab Europe
 - PaNOSC website
- In development:
 - LENS
 - ExPaNDS website

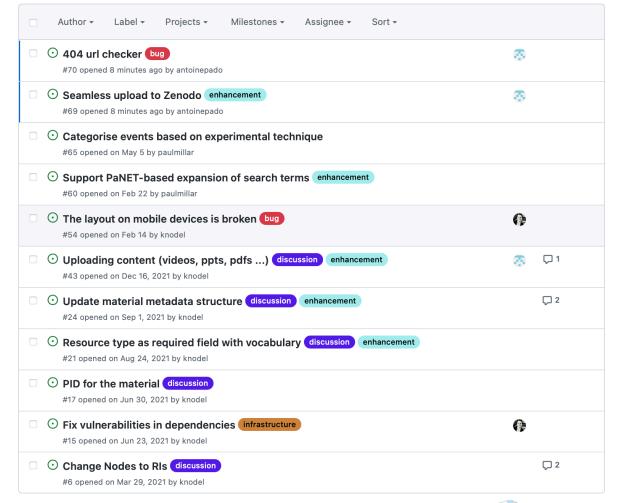

Github Issues

- github.com/pan-training/training-catalogue
- Main questions:
 - Upload feature?
 - Video streaming?
 - Metadata extension?
 - Extended PaNET support?

PaN E-Learning

- PaNOSC WP8
- The courses are integrated in our PaN training catalogue
- Jupyter notebook integration
