

ELI Summer School 2022

Wednesday, 31 August 2022

Users' session 1.: Karoly Osvay: Fast neutron generation with few cycle laser pulses (13:30 - 14:00)

Users' session 1.: Slawomir Skruszewicz: Rescattering dynamics in C60 molecule probed by strong MIR laser fields (14:00 - 14:30)

Users' session 1.: Petar Lambrev: Dynamics of energy and electron transfer in photosystems probed by two-dimensional electronic spectroscopy (14:30 - 15:00)
