

## The Extreme Light Infrastructure Joint Call for Users Webinar

18 July 2022

13:00 - 15:45 CEST

### Webinar Link

Webinar ID: 861 6187 5296

Passcode: 452360

<https://indico.eli-laser.eu/e/UserCall1>

Following the [announcement of the first ELI Call for Users](#), we invite you to participate in a [Webinar](#) for more detailed information about the available equipment offered and the proposal submission process. The programme will feature general information, presentations by each facility, introduction of the User Office staff and time for questions and discussions.

The [Extreme Light Infrastructure \(ELI\)](#) is the world's most advanced laser-based research infrastructure. The ELI Facilities provide access to a broad range of world-class high-power, high-repetition-rate laser systems and secondary sources. This enables cutting-edge research and new regimes of high intensity physics in physical, chemical, medical, and materials sciences.

This Call includes all three of the ELI Facilities, thanks to a close collaboration between [ELI ERIC](#) and the "Horia Hulubei" National Institute of Physics and Nuclear Engineering (IFIN-HH), and the support of the Horizon 2020 [Project IMPULSE](#).

The [Call for Users](#) and [Webinar](#) are open to interested scientists in the European Research Area and from around the world. For those not able to participate live, the session will be recorded and made available on the [ELI User Portal](#).

Please find more detailed information about the programme available on the [event page](#). We kindly ask you to indicate your interest by completing the [registration](#).

For any questions do not hesitate to get in touch with [user-office@eli-laser.eu](mailto:user-office@eli-laser.eu).

We are looking forward to an engaged discussion!

A handwritten signature in blue ink, appearing to read 'A. Weeks', enclosed in a thin black rectangular border.

Allen Weeks  
ELI ERIC Director General

## Joint Call for Users Webinar

18 July 2022

### Programme

| Time  | Agenda Item  | Speaker   |
|-------|--|---|
| 13:00 | Introduction to ELI and Joint User Call  | Allen Weeks,<br>Director General (ELI ERIC)                                       |
| 13:15 | ELI ALPS Presentation of Available Instruments<br>(30min presentation + 5min Q&A)      | Dimitris Charalambidis,<br>ELI ALPS Chief Scientific Advisor<br>(ELI ALPS)        |
| 13:50 | ELI Beamlines Presentation of Available Instruments<br>(30min presentation + 5min Q&A) | Jakob Andreasson<br>Head of Structural Dynamics<br>(ELI Beamlines)                |
| 14:25 | ELI NP Presentation of Available Instruments<br>(30min presentation + 5min Q&A)        | Domenico Doria,<br>Head of the Laser Driven<br>Experiments Department<br>(ELI NP) |
| 15:00 | Presentation of Call for User Portal and Application<br>Process                        | Florian Gliksohn<br>Executive Director (ELI ERIC)                                 |
| 15:15 | Introductions User Office by Facility  | Zita Váradi (ELI ALPS)<br>Jitka Mysíková (ELI Beamlines)<br>Sophia Chen (ELI NP)  |
| 15:25 | Q&A / Discussion   |   |
| 15:45 | End of Webinar   |   |
