

RI.Logistica

GETTING SCIENCE IN PLACE

RI.Logistica's
ILO Ukraine initiative

RI Logistica

Who we are

Our first virtual conference took place in May 2021 with 250 international participants

But our history starts long before this

We are a non-profit organization founded in October 2022 in connection with BSBF in Grenada

We are member driven and our members are RI's and commercial companies.

We strive to create value for all RI stakeholders

Our goal is to simplify logistics and all connected processes

Statement from the

1:st Ukrainian-European
Science Diplomacy
Forum

 |  **Urgent needs for the restoration and modernization of research and technological infrastructure**

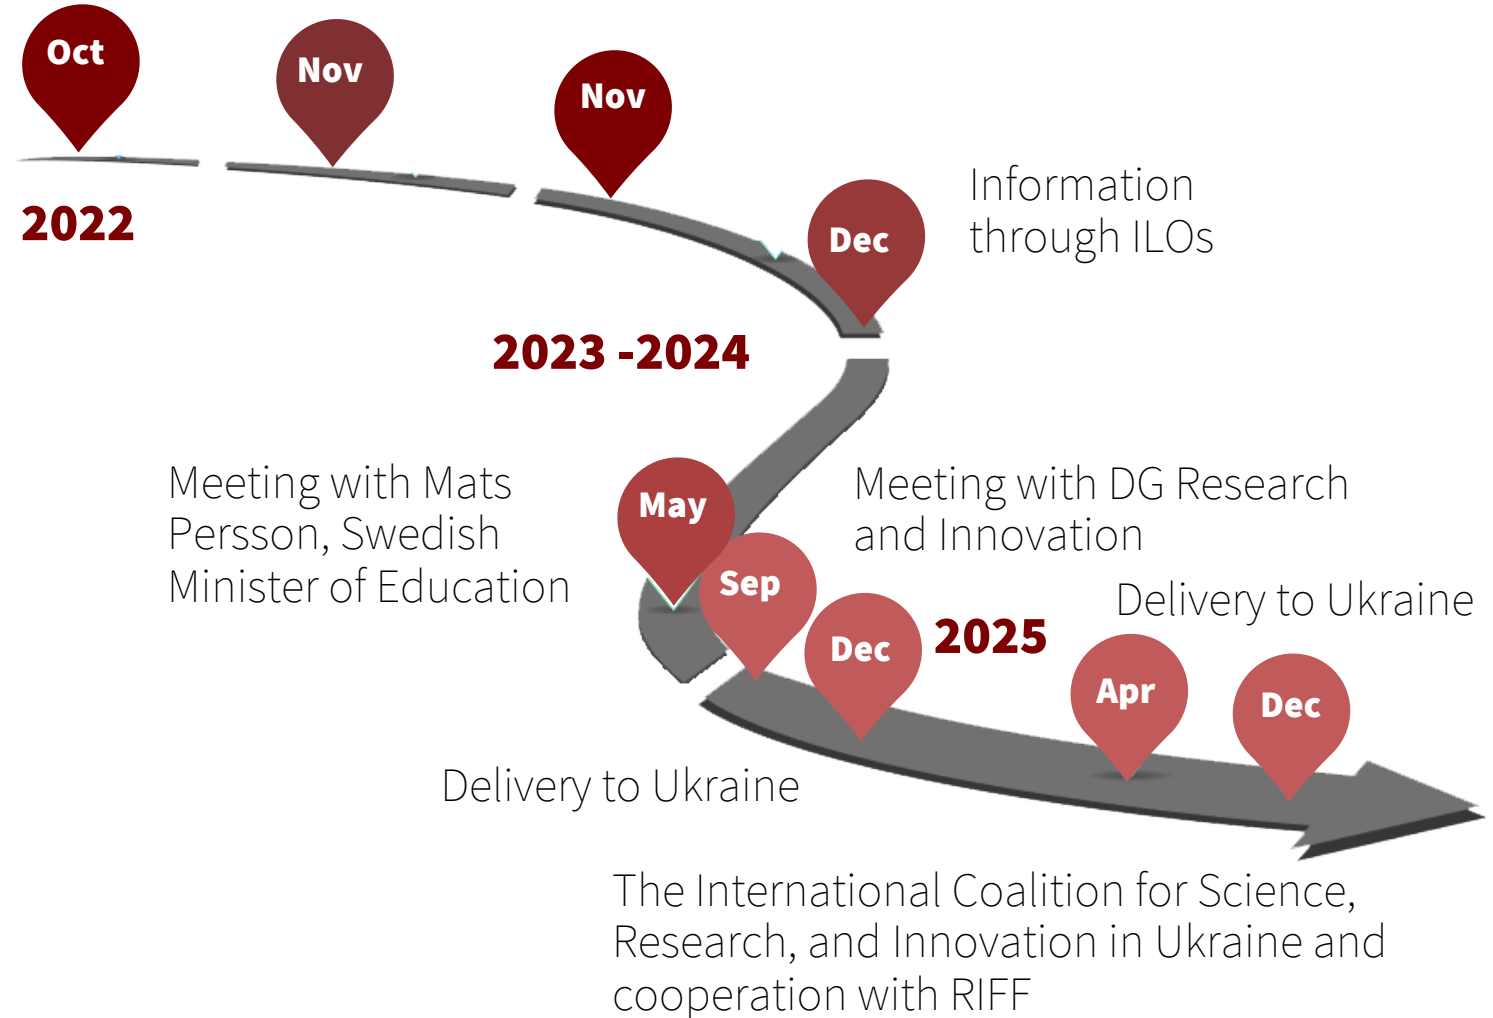

- **Stable energy supply** for research activities through the use of renewable (“green”) energy sources.
- **Restoration of damaged infrastructure** and support for the **financing of institutions undergoing reorganisation** due to the war. Creation of adequate and safe conditions for the preservation of equipment and for staff to perform their duties, including through the arrangement and construction of shelters.
- **Transfer of modern equipment to Ukrainian** institutions in line with identified needs, including decommissioned equipment provided by international partners.
- Support for the establishment of **modern laboratories in key technology sectors:** nanotechnology, biotechnology, artificial intelligence, and advanced materials

From a request to an operational

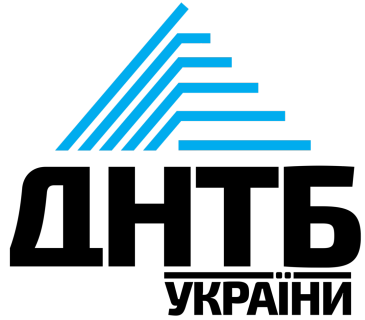

support structure.

PERIIA ask RI Logistica for a solution

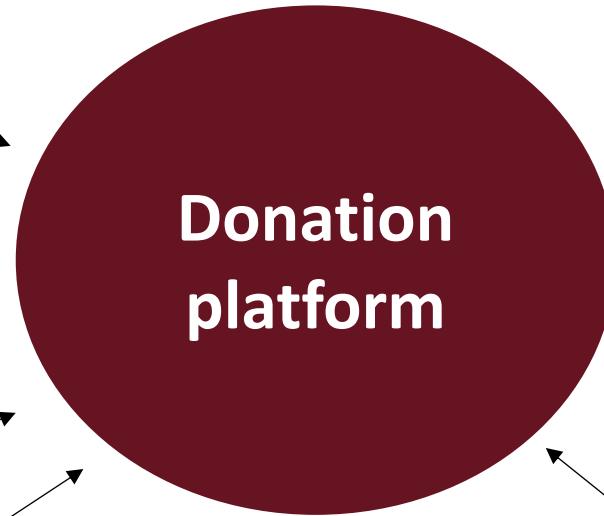

“Green corridor” set up in cooperation with KIPT for donations deliveries into Ukraine funded by EURIZON

Donation setup

Ukrainian research facilities register as receivers of donations and specify their needs. Validity of the receiver and the requests are made before publishing on [Donation platform](#).

If there is a match between the published need and a donor a transport request is sent to RI.Logistica to arrange a delivery. All requirements on the transaction will be investigated and met prior to shipping.

Research facilities and commercial suppliers register as donors. Validity confirmed of the donor before granting access to the [Donation platform](#).

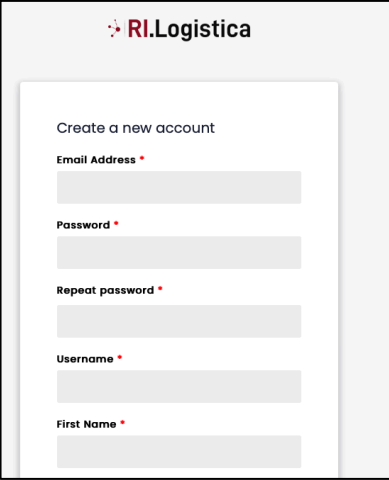

Commercial suppliers

Step by step

1. Register as a Donor

Proof of concept:

the pipeline works and
delivers impact

Donations to Ukraine

Completed:

CERN – NSC KIPT, Kharkiv, Ukraine (2024)
Used computer equipment

CERN – TSKNU, Kyiv, Ukraine (2025)
Used computer equipment

Ongoing:

Medical Center, Groningen, NL –. Karazin Kharkiv
National University, Ukraine

Pending:

- University of Bristol, UK –NAS of Ukraine, Ukraine. Complete BD LSR II system
- Equipment for quantum research from Grenoble, France, to Kharkiv
- From TU Delft Campus to B.I. Verkin Institute for Low Temperature Physics and Engineering of the National Academy of Sciences of Ukraine

Partnerships and strategic cooperation

RIFF Ukraine and R&D recovery conference

The Coalition - International coalition for science, research and innovation in Ukraine

the 1st Ukrainian–European Science Diplomacy Forum

BSBF2026

THANK YOU!
